

Inaugural ACG Denver Women's Forum

In Conjunction with the Third Annual Rocky Mountain Corporate Growth Conference

A presentation and workshop targeted to women executives, professionals, and entrepreneurs.

Featuring Dr. Jana Matthews, Boulder Quantum Ventures

Author, CEO advisor, and founder of three companies, Dr. Jana Matthews will present on "**Leading at the Speed of Growth**," and lead an interactive workshop, followed by networking. Dr. Matthews works with entrepreneurs, CEOs, corporate executives, and top teams to unlock their company's growth potential. No female executive will want to miss this one!

Forum Overview

Growing a business is a challenge for many entrepreneurs and executives who have visionary ideas but wrestle with leadership issues. When an executive grows as a leader, the company grows too. New customers and new markets open, and revenue increases. Entrepreneurial expert Jana Matthews charts the path from visionary to leader. By changing leadership styles and taking on new roles and responsibilities, executives can transform themselves into great leaders and build an even greater company.

You'll discover the three stages of growth that companies face and how to make the transition between stages. You'll also identify the changes you need to make in your leadership roles and responsibilities as your company grows.
